MASKS

N95-MASKS

Alpha Pro Tech
N-95 Particulate Respirator
PFL® (Positive Facial Lock®) Design
with Magic Arch® and Twist Seal®

Donning Instructions

 <p>Step 1. Grip suspension at top of mask with one hand. Slide finger of other hand behind strap pieces.</p>	 <p>Step 2. Open mask by pulling lower ends and use strap pieces until mask is fully open. If in NIOSH (NIOSH) that mask is fully open.</p>	 <p>Step 3. Place strap in pocket position. Strapped bands over back of head, positioning behind ears but not back behind ears and top band over crown of head.</p>	 <p>Step 4. Cover nosepiece to ensure seal contact, making it as tight as possible. To fully ensure strong seal raise and smooth.</p>
 <p>Step 5. Holding mask at nose piece, place over right temple. The mask on the forehead obscures the piece, and cover gently so that mask is snug against face.</p>	 <p>Step 6. Strap any excess material together under chin and cut over at head.</p>	 <p>Step 7. Face Fit Check: To check fit, place both fingers along the edges of the respirator and inhale. If air escapes around your nose, top of the respirator, or under the chin pieces, repeat Steps 3 and 4.</p>	 <p>Step 8. PFL. Make sure you're to face.</p>

Warnings:

1. This respirator should not be used if the mask is damaged or deformed. Change filters when the expiration date is reached or when the filter is no longer effective. Do not reuse the mask.

2. Do not use the respirator if you are unable to breathe through the filter. Do not use the respirator if you are unable to breathe through the filter.

3. Do not use the respirator if you are unable to breathe through the filter. Do not use the respirator if you are unable to breathe through the filter.

4. Do not use the respirator if you are unable to breathe through the filter. Do not use the respirator if you are unable to breathe through the filter.

5. Do not use the respirator if you are unable to breathe through the filter. Do not use the respirator if you are unable to breathe through the filter.
